DIVERSIFIED PORTFOLIOS

M FUND – JMD MONEY MARKET PORTFOLIO

INVESTMENT OBJECTIVES

The primary objective of the Money Market Portfolio (MMF) is to achieve maximum income while preserving capital and liquidity, by primarily investing in Jamaican dollar (J\$) money market instruments.

INVESTMENT STRATEGY

The portfolio primarily invests in short-term J\$ government and commercial/ corporate papers, in addition to foreign currency money market instruments from Caribbean, US, UK, and Canadian companies. These investments are subjected to specified investment constraints. The fund may also include medium-term debt securities offering high-income yields and potential short-term capital appreciation, as well as high-dividend-yield stocks of listed companies.

RISK RATING

The MMF has a **low** risk rating. This indicates that the investments have minimal potential for loss of principal and stable returns.

TARGET INVESTOR TYPE

This fund is suitable for Investors who are conservative, income oriented or those who may be looking for a short-term investment vehicle pending a longer-term investment decision. The fund caters to investors with a short-term investment horizon and for whom principal security is a primary concern.

E FUND – JMD EQUITY PORTFOLIO

INVESTMENT OBJECTIVES

The portfolio utilizes a dynamic mix of growth and value investing strategies to generate long-term capital appreciation primarily through equity securities.

INVESTMENT STRATEGY

The portfolio primarily invests in publicly traded equity securities from Jamaica, the region, and globally, including common and preferred stocks, convertible debt securities, and rights offerings. Asset allocation is driven by the anticipated performance of equity markets, industries, and companies, with consideration of economic, social, and political factors. The Investment Manager (IM) actively rebalances the portfolio, prioritizing resilient stocks to enhance performance and reducing exposure to vulnerable issuers.

RISK RATING

The EF has a **high** risk rating. This indicates that the equity fund investments have a greater potential for significant losses but also higher potential returns.

TARGET INVESTOR TYPE

The Equity Fund (EF) is suitable for Investors with an aggressive risk profile who are seeking a diversified equity portfolio. Additionally, it is ideal for investors with a medium to long-term investment horizon seeking to maximize capital growth.

FUND – USD MONEY MARKET PORTFOLIO

INVESTMENT OBJECTIVES

The primary objective of this fund is to generate a high level of current income in US dollars (US\$) while prioritizing capital preservation and liquidity. The portfolio invests in short-term US dollar-denominated money market instruments and other interest-bearing securities.

INVESTMENT STRATEGY

The portfolio primarily invests in US dollar short to medium-term debt securities issued or backed by the governments of Jamaica, the US, the UK, and Canada, as well as their agencies. It includes loan obligations and high-yielding medium-term debt securities. Focused on low-risk, short-term US dollar-denominated assets, the portfolio aims to enhance near-term returns while maintaining liquidity. The IM targets attractively priced opportunities in government-backed loans, notes, and investment-grade corporate securities.

ASSET ALLOCATION

TARGET INVESTOR TYPE

The portfolio is ideal for conservative investors with low risk tolerance who prioritize principal security. It suits those seeking hard currency investments or a temporary investment vehicle while deciding on long-term options.

RISK RATING

The MMF has a **low** risk rating. This indicates that the investments have minimal potential for loss of principal and stable returns.
